ORAL PLEASURE

Orgasm moment: Creaming your fig

It is a porn truth universally acknowledged that even the classiest setting must conceal some dark and dirty desires. Take, for example, this perfect plate of unsettlingly sensual foie gras from sophisticated French bistro Couqley. Firm and juicy slabs of foie gras come complete with trail-your-tongue-here arrows of pulped strawberries and balsamic vinegar. There's enough for two or more to mouth at the creamy goose liver spread-eagled across tantalising tranches of fig bread (and we all know what they say about a split fig).

£22,000 at Couqley (01 442678) The Alleyway, Gemmayzeh.
